

Full-day school tour in Barcelona

Barcelona from its Roman roots to the 21st century

*Travel to the
future today!*

- Visit of roman walls and the remains of a temple which testify to the origins of the city.
- Walk through the most important Gothic quarter in Europe in terms of size and concentration of monuments.
- Information about Barcelona's innovative mobility strategy with the longest automatic metro network in Europe, its new network of urban buses, tramway and a bike sharing system.
- Presentation about the central district Eixample which is a remarkable example of early modern town planning with a very high density and mix of housing and economic activity.
- Tour through Barcelona's 22@ district with its contemporary architecture landmarks and its innovative approaches to urban development.
- Visit of the recently traffic-calmed superblock of Poplenou, which is a pilot test of a future large-scale strategy for reclaiming public space from private vehicles and making it available for public transport, bicycles and pedestrians.

The tour includes a lunch break and a competition with quiz questions to make it fun for the students.

Duration: 8.5 hours
